The Environmentally-Friendly Electric Towing / Platform Trucks

40T/15P-7

Revolutionizing the productivity in the material industry!

Maximize the productivity of your business with our powerful and agile electric trucks.

With our vast experience in the production of construction equipment, hyundai is able to meet the demands of our consumers. Ratchet type Parking brake requires less effort 40T-7/15P-7, produced by Hyundai are not only economical, environmentally friendly and allow for convenient maintenance, but their improved maneuverability and quiet operation make our products the most widely-used towing maintenance truck in trade and distribution companies around the world.

- **Anti-rollback function** ensures smooth restarting on a slope without any move back to the rear.
- **Anti-rolloff** : This feature is designed so that if a vehicle is in a non-drive condition on a gradient, it will result in the vehicle plug braking slowly down a ramp without running away.

- **Adoption DC-DC CONVERTER CHARACTERISTIC**
 - High frequency (Silent operation)
 - Protection for short circuit, overload, reverse polarity
 - IP67 protecting rating
 - Improvement of safety & performance during the maintenance
 - Improvement of maintenance & durability

Quiet and Environmentally-Friendly 40T-7/15P-7

Hyundai's towing / platform trucks are electrically powered to provide quiet and environmentally-friendly operation for use not only in factories, but in places of business such as food plants, where hygiene and sanitation are a must.
